

Only best quality raw material, imported from Europe (France, Germany, Belgium and Spain), South America, Taiwan and Japan are used in manufacturing all our quality products.

Our company is built on an area of 40,000 square meters in Merghem Industrial Area. It is equipped with the latest high-tech machines and with the diligent efforts of a 1,000 skilled workers enables us to manufacture 250,000 pieces per day.

AMW Factory produces* more than 80 models of tableware and flatware. We design and create a wide range of stainless steel dishware (tray plates), kitchen knives, kitchen tools, tableware and flatware that are characterized by quality and durability.

We are the sole factory in Egypt that produces the hardened blade for knives made of special steel. 25% of our production is exported to many countries around the globe.

*All products are according to Egyptian Standards 8442

* ISO certification for 9001-14001-18001
