

### Options for Tailor made items & Promotion items

Our well equipped workshop enables us to make new molds for new models in a very short time which ensures best delivery time for new designs and customized items.

#### AMW Factory offers the following services:

- Gold & silver plating: For the silver and gold -plated pieces, the electroplating process is an additional step. The pieces are first prepared by being buffed so that the edges are smooth and the surfaces are free from scratches. When the buffing is completed, the pieces are given a thorough cleaning. Finally, they undergo electroplating, in which a layer of silver is electrically deposited over the base metal.

- Mat look and silver shine
- Mirror and sand polish
- Weight: according to design and customer requirements
- Logo Stamping
- Branded packaging
